The Francis Boyer Lecture on Public Policy

The American Enterprise Institute has initiated the Francis Boyer Lecture on Public Policy to present an occasion for exploring the relationship between the private sector and government in an effort to develop creative formats for their interaction. These lectures are being made possible through an endowment created by Smith Kline Corporation in memory of Mr. Boyer, the Corporation's late Chairman of the Board.

The Francis Boyer Lecture is delivered annually in Washington, D.C., before an invited audience. The lecturer is selected by the American Enterprise Institute's distinguished Council of Academic Advisers and is an eminent thinker who has developed notable insights on one or more aspects of the relationship between the nation's private and public sectors.
